Natural Medicines Database

*Natural Medicines* includes authoritative and peer reviewed databases and other resources concerning complementary and alternative medicine and therapies. This database was formerly *Natural Standard* and *Natural Medicines Comprehensive Database.*

**Searching in the database:**

1. Begin searching by scrolling over the **Databases** link.
2. Select the most appropriate subject area for your search. E.g. **Medical Conditions** may be a good choice for your DSW or ECE research topic.

**Finding Your Topic:**

1. Topics are listed alphabetically. Find your topic and click on the link to open the article. E.g. Asperger syndrome.
Full Asperger syndrome article:

Use these links to select the information displayed or scroll through the entire article.

Using Natural Medicines, you can also review adverse effects, herbs and supplements, sports medicine, drug interactions, patient handouts and much more.
