Tracking & Printing a Search History in MultiSearch

EBSCO databases provide a simple way of keeping track of your searches. This tool may be very useful when you want to recreate a previous search.

Each step of your search is shown in the Search History/Alerts area:

- **Turn on your search history**
- **Search terms, options, etc shown in this area**
- **List of search results**
- **Number of results**

Adding more search terms narrows your results:

- **Refine your search by adding more search terms**
- **Each additional search step is listed here**
- **Updated list of search results**
- **Number of results has changed**
CLICK HERE TO PRINT YOUR ENTIRE SEARCH HISTORY

Limiters that have been applied are listed here
